DISPOSITION OF GRAIN

To ensure proper processing of all grain settlements, please pick up a copy of the scale ticket after each and every load has been delivered to verify bushels, grades and splits (if applicable.). Also notify the scale operator each load and disposition of the grain (store, spot, contract, etc.) If no instructions are given, the grain will be first applied to all open contracts and the remaining unpriced grain will be sold on the closing bid for the day it was delivered.
